ARM LABOR UNIONS, IS PLEA OF LEADER

trial Relations Hears Defence of Colorado Miners.

CHEERS FROM SPECTATORS TO BE AT HEARING IN BODY

Why the McNamaras Acted for Their Fellows.

PHILADELPHIA, June 27.-Union men are justified in arming themselves and taking the offensive in the circumstances governing the Colorado mine riots. So James H. Maurer, president of the Pennsylvania Federal Convention of Labor, told the United States Commission on Industrial Relations to-day.

"I believe these men," he said with emotion, "would be justified by the highest court in the land. In Michigan, West Virginia and Colorado the miners have appealed again and again to the authorities to protect them from the crueities imposed by the mine owners. The men were shot at, locked up without trial and finally we had the massacre in Colo-rado, when men, women and children were mowed down by the hired guards of the mine owners.
"How about the McNamaras?" asked

Commissioner Weinstock.
"The McNamaras are the victims of your own system of individualism."

The spectators broke into applause and were sharply rebuked by Commissioner O'Connell.

"The McNamaras," continued Mr.
Maurer, "I repeat, were victims of your
own system of individualism. If their
confessions were true, and I believe they confessions were true, and I believe they were, they tried to protect their class by employing the methods of this idiotic age. The workers of their class were engaged in dangerous work. I know, for I have done it myself. I have walked beams on buildings in course of construction, and I know what it means to lose your nerve. I lost mine, and never dared go up again. These men flirt with death every minute of their work-

ing hours.
"The McNamaras were trying to get living conditions for these men. Force was used against them and they came "The McNamaras were trying to get living conditions for these men. Force was used against them and they came back with force. They used the weapon of dynamite as individualists."

"Do you sympathize with their methods?"
"No, I do not."

"Are you tired riding in cars fit for cattle? If so, be present at the hearing of our complaint at Chancery Chambers, 75 Montgomery street, Jersey City, on Thursday, July 2, prox, at 10:30.

"We will be represented by counsel.
"Come and tell the Board of Utility comes."

"Don't you think it is folly to use of-fensive methods where we have the bal-Yes, but I can understand the con-

dition of the oppressed worker. He knows that the system under which he is work-ing is sapping the life from his body and blasting the chances of those dependent upon him. Can you blame him if he strikes hard at that system when oppor-tunity presents itself?"

When asked for a remedy for the cial unrest in the United States, Mr.

Just as long as one small group of men owns the means for making a living the rest of mankind will remain slaves. The people must own the means of production. slaves. The people must own the means of production."
"But it will take some time to bring

that condition about," observed Commis-I don't know about that," said Mr.

might be adopted at the present time?"

GLYNN HITS BUILDING LAWS.

Fire Disasters, He Says, Carried Reformers Too Far.

Gov. Glynn has made up his mind that the present building law oppresses owners of real estate and builders and must be changed. He says that the Triangle fire and the Binghamton fire "caused us to go too far with safety laws and the con-sequence is that property owners are hard pressed." The Governor came down from Albany

to attend the police games at Brighton Beach and to address the Police Benevolent Association at a Hotel Vanderbilt luncheon. He said the fact that he ac-companied William R. Hearst to Chi-cago had no political significance.

Gov. Glynn said he picked up many good suggestions in his study of the building problem in Chicago. He added:

"Our own building law has got to be changed. We have taken the lessons learned in the Triangle and Binghamton fires and put them into law, whereas the conditions in those disasters could not arise once in a thousand times. I believe the law can be changed in a way to give
